## Missing a tooth? Consider Dental Implants

WE ACCEPT  
MOST DENTAL  
INSURANCE  
PLUS DENTAL  
MEDICAID FOR  
ILLINOIS!

### Because you matter.

A dental implant is an ideal tooth restoration for people who are missing one or more teeth. To begin the implant process, a titanium post is surgically positioned into the jaw. This post will act as a permanent "root" for the implanted tooth. Implant placement requires special training, and our team is highly-trained in implant placement. Please set up a consultation for this comprehensive procedure.
